

ICTTM'S STRATEGIC SHAREHOLDER AND INVESTOR BASE: A Diverse Coalition for Innovation

The International Centre for Trade Transparency Limited (ICTTM) boasts a strategic shareholder and investor base that spans across various key sectors of the global economy.

Our major shareholder, holding a majority stake, is the esteemed International Trade Council, a testament to our solid foundation and commitment to excellence. Complementing this pivotal association is a diverse cohort of investors hailing from critical industries such as logistics, manufacturing, supply chain, finance, and venture capital, representing a vast geographic spread across 19 different countries. This eclectic mix of shareholders not only infuses ICTTM with a wealth of industry insights and global perspectives but also signifies the immense commercial interest and confidence in our product.

The feedback and input from such a varied and specialized group of stakeholders provide ICTTM with a unique commercial edge, enabling us to refine our offerings and strategies to meet the nuanced demands of the international trade market. The diversity and caliber of our shareholders are not just a support system; they are a clear indication of the market's recognition of the need and potential for a product like the forth-coming ADAMftd tool.

The diverse geographic distribution and industry backgrounds of our shareholders provide a robust foundation of support for the ADAMftd project, underscoring its global relevance and appeal. With shareholders hailing from 20 different countries and representing 25 distinct industry backgrounds, the project benefits from a wide array of perspectives, expertise, and insights. The majority of these shareholders come from the logistics and freight companies, along with significant representation from those involved in manufacturing and international trade. This composition not only reflects the project's direct impact on these sectors but also facilitates an invaluable network of connections, resources, and industry-specific knowledge. Such a broad and specialized base of support empowers ADAMftd with the credibility and depth needed to address the nuanced challenges of global trade, ensuring that the platform is well-positioned to meet the diverse needs of its users across the globe.
